Richard Nixon With Labor and Crime and Australia Focuses

Late 19th Century and Early 20th Century world affairs sets the stage. Steam Power and Rail and Shipping and excavating and mining and farm work gained under steam. The existing industrialized countries had the technology and manufacturing advantages of less developed regions where the natural resources exist. Feudal powers were at it again.

Bolshevik Revolution. In October 1917, the Bolsheviks, led by Vladimir Lenin, seized power. The Bolsheviks' policies of "peace, bread, and land" and "all power to the Soviets" gained support from workers, peasants, and soldiers. - Google AI Overview

The hemophilia of Tsar Nicholas II and Alexandra's son, Alexei, significantly impacted their reign, causing them to become increasingly isolated, secretive, and reliant on the mystic Grigori Rasputin, ultimately contributing to the downfall of the Romanov dynasty due to public distrust and perception of their poor decision-making fueled by their desperation to protect their ailing heir; keeping Alexei's condition a state secret further eroded their public support. - Google AI

In England and the USA the Windsors, FDR, and others watched as Prince Albert of York was already (years before the 1925 speech) showing a brain defect they needed to research less publicly.

After World War I (from which Russia withdrew in 1917) and the Russian Civil War, the hammer and sickle became more widely used as a symbol for labor within the Soviet Union (USSR) and for international proletarian unity. It was taken up by many communist movements around the world, some with local variations. The hammer and sickle remains commonplace in self-declared socialist states, such as China, Cuba, North Korea, Laos, and Vietnam, but also some former Soviet republics following the dissolution of the Soviet Union, such as Belarus and Russia. Some countries have imposed bans on communist symbols, where the display of the hammer and sickle is prohibited. - Wikipedia

In the USA Whitney v. California, 274 U.S. 357 (1927), was a United States Supreme Court decision upholding the conviction of an individual who had engaged in speech that raised a clear and present danger to society.[1] While the majority of the Supreme Court Justices voted to uphold the conviction, the ruling has become an important free speech precedent due a concurring opinion by Justice Louis Brandeis recommending new perspectives on criticism of the government by citizens.[2] The ruling was explicitly overruled by Brandenburg v. Ohio in 1969. The "Great Dissenters" Brandies and Holmes dissented favoring law abiding free speech and the dissent matched later rulings and law. But the Red Scare was on and Organized Labor was scene as the mechanism to insuate Communism into the USA.

Thomas v. Collins, 323 U.S. 516 (1945) is a similar Post WWII case about industrial policy (unions) being debated among workers freely. In fact after 1949 when Chairman Mao completed the revolution in China labor movements were yet another Red Scare, the second of the 20th Century and 1946 with his globalist friend William Randolph Hearst will being fighting the red on "The Devil's Chessboard" along with James Jesus Angleton, Wild Bill Donovan, and others under the Marshall Plan and accords with the WWII allies forming new security alliances.

This will be Congressman Nixon of the Los Angeles County area in Congress who will setup the CIA mechanisms for this as legislation and then as Vice President will run the NSC that runs the CIA under Eisenhower will create or recruit for global forces for global regime change and overthrow.

Earlier 20th Century history comes into play again. Prohibition in the early 20th Century created Great Lakes (New York and Detriot bordering Canada by water) smuggling operations and large criminal networks. Union busters found these thugs usefull for breaking strike lines and other works. These Same gangs had formed into Casinos and gambling on the East and West coasts of the USA in the 1950's. In Florida Meyers

Lansky and his assistant Chauncey Holt worked gambling and casinos with Jack Ruby tied to Batista in Cuba. In Nevada Bugsy Segal used the laws of Nevada for similar gaming.

These Murder Inc., forces will be drawn into Soldiers of Fortune contract agents for the CIA and eventually even be used against both JFK and RFK largely tied around plans for Indonesia and that will be one of the focuses of this chapter.

General Edward Lansdale USAF to CD Douglas Jackson

7 March 1953
MEMORANDUM FOR C.D. JACKSON
Subject: Latin America

1. You requested some thoughts on Latin America, based upon lessons learned in the Philippines, In order to be of most help to you, in the possibly brief time before my departure overseas, I am dividing my suggestions in two parts. The first part is attached.

The second part requires deep study of an area unfamiliar to me. If there is insufficient time to write the second part, there are competent folks in C.I.A. who can do it.

2, The first part is an outline of my personal opinion of the basic mechanism needed to win the struggle we face. It is a start, not exhaustive.

It is the first time I have tried to describe it concisely, so perhaps there are some rough spots. Latin America is rich in assets for its most efficient working,

3. The basic mechanism must be locked at as only the covert or semi-covert part of the United States team in each country. The rest of the team should be playing in the same game, towards the same goal. If it isn't, the United States loses. Thus the critical task falls upon the Executive, for clear statement of our Policy towards each country and compliance of officials to both spirit and letter of that policy.

4. The second part of my suggestions concerns the application of the basic mechanism to each country. The start should be a penetrating review of what we know of each country. From this review, by individual country, we list the real targets to be destroyed, the assets (including names of persons) in that country which will destroy the targets, and a sketch of how an agent or agents make those assets viable. The description of the basic mechanism contains thoughts on this.

5. If this way of doing is acceptable, then the means are next. You know where help awaits you in doing it successfully,

SG hysdota

EDWARD G LANSDALE COLONEL USAF,, DECLASSIFIED with deletions and continued …

Summarized Description

In each country, there forces and leaders (actual or potential) believing In the freedom of the in forms as varied as our interpretation of that principle. We must put the United States (represented by its Agents of Influence who work in and upon the politics of foreign nations), quietly, into contact with those forces and leaders, strengthening them until they become the ***authority*** of that country. Then we insure that such authority does not become perverted Into fascism or communism. we insure by aiding

internal balance of power, vigilantism, and similar means. In all of this, we are the friendly helpers, not the doers. We help others help themselves.

Although the French Revolution succeeded displacing the king Robespierre took over in the vacuum becoming a tyrant.]

The principal *Agent [Of Influence]* must either have achieved stature In the target country or be capable of achieving stature. The two best places to look for him are In the target country or the United States. Long-time residents In a foreign country tend to paternalistic colonialism or to thinking of natives as divided between social equal and not-quite-bright ("children" in the milder form, "n*ggers in the worst) Perhaps he can be picked from a Iist of Most Loved Yankees" supplied by native opinion makers in the country (our existing U.S. apparatus has the means to obtain a list, even though it might be contaminated) or supplied by US. citizens who know the country well (this might not be as accurate as that supplied by the natives). Such a list might name former ambassadors, military personnel, businessmen, or professionals who had spent several years In target country and would find a ready welcome again.

It is this Lansdale overthrow operation Col Prouty his coworker asserts killed JFK.

Union Breaking Bud Holt and Chauncy Holt meet Licavoli and Murder Inc,

Of course, I was well aware of who Licavoli was, since one of my cousins, Bud Holt, had worked for Harry Bennett, a most unusual gangster, who was chief of security for Ford in Detroit. Bennett worked hand in glove with Licavoli and other Detroit gangsters, using them as strike breakers. On the other side of the fence, Licavoli also worked for the Teamsters. It was all the same to the gangsters; they worked both sides of the street.

In 1938, Bennett hired my cousin, Bud, and one of Licavoli's associates, a bootlegger named Eddie Percelli to kill Walter Reuther of the United Auto Workers, who were involved in a bitter struggle with Ford.

Bud and Eddie bungled the job and were later tried for assault on Reuther but were able to beat the rap. Licavoli, in later years, confided in me how cozy all the auto makers were with the Detroit Mafia, as well as with the Purple Gang, who originally imported the Licavoli clan from St. Louis. He recounted for me the details of his attempt to kill Harry Bennett after a dispute over wages that were to be paid to Licavoli's men hired as strike breakers by Ford.

Organized crime had, for a long time, ignored the numbers racket and regarded it as "chicken feed." They, in fact, referred to it, very contemptuously, as "nigger pool."

However, when Sam Giancana was in prison, he got to know a man by the name of Clark, who controlled most of the numbers rackets in Chicago and Clark really opened Giancana's, and the syndicate's, eyes as to the amount of money that could be earned through the nickels and dimes bet on the numbers.

Today's lotteries are just a variation of the numbers racket as conducted by criminals, black, brown, yellow and white, and the odds are even worse. From Self Potrait of Chauncey Marvin Holt a rail-yard assassin team member.

The switch from working for Batista and Cuban gambling into being recruited to overthrow Castro was where Holt and others went from casinos work and bootlegging crimes and union busting muscle into full fledged CIA resources.

Chauncey Holt has by punching his US Amry Air Corps instructor as WWII broke out was thrown out of the program and into the brig. But the Mafia bosses found it he was able to fly and legal to do so. He went from

mobster private escort of mob bosses into flying reconditioned B-26's (retrofitted at Peter Licavoli's redone Grace Ranch) in Guatemala.

Focus Indonesia

Indonesia and Papa New Guinea are close-in islands running from about 11 o'clock to 1 o'clock north of Australia. Mostly Pacific Islander the population more resembled the internal native population of Australia rather than the dominant political and economic sector Europeans. The term "pygmy" was used to describe some Aboriginal people of the North Queensland rainforests. However, there is no evidence of a separate genetic lineage for these people, and the term is considered a myth used to justify colonization. Indigenous Australians have a wide range of physical characteristics, and the term "pygmy morphotypes" is a more accurate way to describe these variations.

The Netherlands (The Dutch, Holland by other names) on the far side of Germany to Austraalia as the crow flies had before WWII controlled Indonesia including the use of natural resources by Dutch Shell.

After WWII under President Sukarno the area was politically up for grabs in a balanced political system. The USA and CIA and British conspired to insert President Suharto who was massacre the Chines population of the islands and commit other atrocities but keep the island under US Government-favoring control.

Increasingly experts and myself Edward Paul Donegan connected to this story believe this battleground was what JFK was assassinated over as his brother RFK was as well. It is history tied to CIA and the CIA hopes for Barrack Obama Jr. too in that region and this book calls into questions what the real and still untold truths of Barrack Obama Jr. CIA family jewels systems truth is his birth and development in CIA cover identities like Business International Corporation and early and later questions of CIA activity.

All of the facts of this involved a string of deaths in the 1961 to 1968 time period called by some "the Assassinations (Lisa Pease and James DiEugenio.)

In 1968 RFK is assasinatated in Los Angeles possibly by Nixon operatives tied to USAID and Anne Chenault. Nixon wins the US Presidency and during his first term CIA revelations become public and Nixon is again in cover-up mode about "that whole JFK thing."

The New York Times

In April 1972, Hersh was hired by *The New York Times* as an investigative journalist at the paper's Washington bureau. After the June 17 break-in at the Democratic National Committee headquarters in Washington and the emergence of the Watergate scandal, the *Times* sought to catch up with the reporting of Bob Woodward and Carl Bernstein at *The Washington Post*, who broke several stories in 1972 linking the break-in to the Nixon campaign. Together with Walter Rugaber, Hersh produced extensive reporting for the *Times* on the unfolding scandal; a key article by him published on January 14, 1973, revealed that hush money payments were still being made to the burglars, which shifted the press's focus from the break-in itself to its cover-up. During 1973, Hersh wrote more than 40 articles on Watergate, most printed on page one; his reveals included the FBI's failure to investigate political operative Donald Segretti, despite knowing of his activities, and leaks from the grand jury testimonies of former Attorney General John Mitchell and burglar James McCord, the latter of which revealed that the Committee to Re-Elect the President had made the payments. John Dean, Nixon's counsel, later said that while it had been the *Post*'s articles in 1972 that had encouraged prosecutors, "the most devastating pieces that strike awfully close to home" were Hersh's in 1973 and 1974.

On December 22, 1974, Hersh exposed Operation CHAOS, a massive James Angleton CIA program of domestic wiretapping and infiltration of anti-war groups during the Nixon administration, which was conducted in direct violation of the agency's charter. Hersh reported that dossiers had been compiled on at

least 10,000 American citizens, including congressmen; the government eventually conceded the figure was closer to 300,000. He wrote 34 more articles on the story over the next months; they prompted the formation of the Rockefeller Commission and Church Committee, which investigated covert CIA operations and led to reforms of the agency. Hersh's exposure of CHAOS was the earliest reporting to reveal contents of the CIA's "Family Jewels" list of its own illegal activities. Hersh soon felt "double-crossed" after learning of a January 16, 1975, meeting between the paper's top editors (including executive editor A. M. Rosenthal) and President Gerald Ford, in which the president mentioned CIA political assassinations-a comment which he subsequently asked to be struck from the record; the editors later agreed not to tell Hersh about the disclosure. Hersh thereafter decided to move away from reporting on the CIA.

On May 25, 1975, Hersh revealed that the U.S. Navy was using submarines to collect intelligence inside the three-mile protected coastal zone of the Soviet Union in a spy program codenamed "Holystone", which had continued for at least 15 years. It was later revealed that Dick Cheney, one of Ford's top aides and later George W. Bush's vice president, proposed that the FBI search the home of Hersh and his sources in order to halt his reporting on the subject. -Wikipedia

During this time of MK-Ultra, assassinations, heart attack guns using shell fish poison, and other CIA activites the wife of E. Howard Hunt died on United Airline Flight UAL 553. The CIA reforms the reporting was bringing meant CIA contract agents were left with no money. Per St. John Hunt Dorothy his mother was working with E. Howard Hunt, Nixon operatives, and others to create a hush-money and retirement fund for the former assasins teams.

Later TWA Flight 800 had Patty Hearst on it. She and Brigid Berlin, daughter of a Heast Publications manager, had been part of the crew at Interviews Magazine. Jed Johnson through these figures at his magazine had the Latin America an Caribbean overthrows information of what Nixon and Twombly had been doing, and he was preemptively "silenced" when that plane was sabotaged on the tarmac to become a flying fuel disaster removed from computerized tank control devices then a flair-like device flow towards the plane while it was in flight triggering the explosion.

Like with Watergate carefully placed Nixon appointees as part of the investigation team steered away from Conspiracy Theories but AFTER the confession of E. Howard Hunt to the assassination of JFK the hush-value of these deaths on those airplanes is a plausible cause the CIA had to sabotouge those flights.

Polka Dot File on the Robert F. Kennedy Killing: The Paris Peace Talks Connection

The Richard Nixon group of operatives and their connection to Anna Chan Chennault and the CIA's Flying Tigers American Volunteer Group.

Fernando Faura The spirit of this book is captured with a quote from the Chief of Detectives of the LAPD regarding the girl in the polka dot dress: "That woman will haunt me for the rest of my life". This quote applies to the author as well who has bravely come forward with his journey to unravel a mystery that lay at the heart of a conspiracy....Who is the girl in the polka dot dress seen leaving the Ambassador Hotel loudly proclaiming "We shot him" around the time Robert F. Kennedy would be assassinated. The murder of Presidential Hopeful/Senator Kennedy would be quickly sloughed off as another lone nut hit in the person of Sirhan Sirhan. Eyewitnesses to the shooting, the surroundings would relay details to authorities that would debunk the official line. Witnesses such as Sandra Serrano and John Fahey were inconvenient and troubling to law enforcement looking to close the case quickly. The work done by the LAPD could only be described as slipshod. Questions regarding the girl in the polka dot dress would not be the only anomaly....bullets fired, proximity of the gunmen, other characters surrounding Sirhan highlight a troubled scene. Fernando Faura would put himself at risk investigating the oddities. His story is short, but hardhitting...A crisp thriller that is unfortunately true...A motive for the murder offered other than the usual pabulum spouted about lone assassins.
